## Our Founders

### Greta Cutulenco, CEO & Co-founder

With a background in automated data analysis for testing and anomaly detection, Greta Cutulenco has worked on system testing, monitoring, and analysis for major OEMs and Tier 1s, including Bombardier and Magna. In 2018, Greta won the Female Founders Competition, sponsored by M12, EQT Ventures and SVB Financial Group. She has also been included on the Forbes 30-Under-30 list for manufacturing and was named one of 2019's Canadians to Watch by Automotive News.

### Jean-Christophe Petkovich, CTO & Co-founder

Jean-Christophe Petkovich is the CTO and co-founder of Acerta Analytics Solutions. He is a PhD candidate in computer engineering at the real-time embedded software group at the University of Waterloo and has over 10 years of experience in data analysis, pattern recognition, statistical modelling, and machine learning. Jean-Christophe's extensive work history includes writing software for safety-critical systems for leaders in the transportation industry, including QNX and Bombardier.

### Prof. Sebastian Fischmeister, CSO & Co-founder

Sebastian Fischmeister is the CSO and co-founder of Acerta Analytics Solutions. He is an Associate Professor in the Department of Electrical and Computer Engineering at the University of Waterloo and Executive Director of the Waterloo Centre for Automotive Research. Sebastian has been performing systems research at the intersection of software technology, distributed systems, and formal methods for over 15 years. His preferred application area is distributed, real-time, embedded systems in the domains of automotive, avionics, and medical devices.
