

Improving vehicle part quality in precision manufacturing

About Acerta

Acerta Analytics Solutions Inc. (Acerta) develops machine learning and artificial intelligence (ML/AI) solutions for precision manufacturers of parts for automotive and off-highway vehicles.

Acerta's solutions provide actionable insights that help automakers and Tier-1s get the most from their manufacturing data. Acerta helps its customers make the right decisions fast, optimize production, and improve product quality.

| Company name | Acerta Analytics Solutions Inc. |
| Industry | Automotive, transportation, mobility |
| Year established | 2017 |
| Headcount | 35 (2023/Q1) |
| Customers | <p>Precision manufacturers of parts for automotive and off-highway vehicles</p> <ul style="list-style-type: none">• Automotive vehicles = light, commercial, and electric vehicles• Off-highway vehicles = construction, agricultural, and power sports equipment |
| Co-founders | <ul style="list-style-type: none">• Greta Cutulenco, CEO• Sebastian Fischmeister, Professor in the Department of Electrical and Computer Engineering, and Computer Science, at the University of Waterloo• Jean-Christophe (JC) Petkovich, Former CTO |

Investors

Seed funding, 2017

\$1.75M from OMERS Ventures

Series A, 2020

\$7M USD led by OMERS Ventures with participation from M12, Radical Ventures, Standup Ventures, and Economic Development Canada (EDC)

Series B, 2022

\$8M USD led by BDC Capital Industrial Innovation and Thrive Venture Funds with participation from OMERS Ventures and StandUp Ventures

“Partnering with Acerta supports Microsoft’s vision for the future of mobility, enhancing the automotive supply chain with advanced analytics for new insights.”

– Darren Coil, Director of Business Strategy, Microsoft

“Artificial intelligence has already played a huge role in stimulating innovation in the automotive industry, and it will continue to do so for many years to come.

We’ve entered a new phase in the world of transportation, and Acerta is in a unique position to empower automakers around the world by enabling them to harness the power of their data to deliver valuable insights, drive ROI, and ultimately make better decisions for their business and customers.”

– Brian Kobus, Partner, OMERS Ventures

Company information

| | | | | | | | | | |
|-------------------------------------|---|---------|----|-------------|--------|-----|-------|------|----|
| Mission statement | To translate complex product data into actionable insights. | | | | | | | | |
| Vision statement | Enabling understanding of the digital thread of data for every vehicle. | | | | | | | | |
| Name/logo origin | The name Acerta is a play on the concept of a certifier in computer programming and the idea of accelerated certification. The green rings in our logo depict a stamp of approval. | | | | | | | | |
